

La Marzocco Technical Bulletin #115

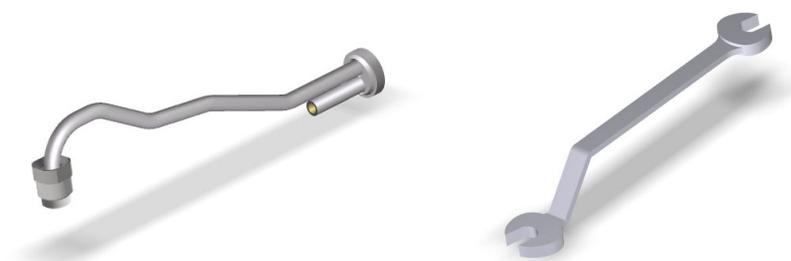

TL 30.03 internal tube

We would like to inform you that GS3 and Strada EE-EP internal tube has been modified.

old parts

The 14mm hexagonal nut has been reduced to 13mm square nut in order to make the tube easier to remove from the group. Consequently, we will offer a 13mm open-end bent wrench (UT108) to fit the new nut since the previous wrench (UT107) is now too large to work the smaller nut. For those who have not purchased UT108, most 13 mm crow foot wrenches will work acceptably to remove the fitting.

new parts

The new spare parts are available for order through the parts department with codes:

UT108 BENT WRENCH WR13 FOR GROUP TUBE
TL30.03 INTERNAL TUBE FOR PADDLE

la marzocco

handmade in florence

The new part has been included in production starting from serial number:

ST002257

GS005757
